

The Department will recognize up to 8 hours of training already completed toward the 16-hour training requirement as outlined in Section 75 (g) of the Act.

Listed below are training courses currently acceptable to satisfy the prior training requirements, consistent with Sections 75(g) and (i) of the Act, and the appropriate credit to be applied for each. It is the responsibility of the instructor to verify successful completion of prior training and apply the hours of credit as listed. Once this prior credit is combined with the additional training hours provided by the instructor, the ILCCF Instructor will certify the 16-hour training requirement was met. ILCCF Instructors will inform applicants how much credit they will receive for their prior training and remind applicants the prior training certificates must be submitted with the ILCCF Training Certificate when they apply. This list may be updated as additional courses are submitted for review and approved by the Department. Prior training credit from multiple approved courses may be combined to equal up to 8 hours. A maximum of 8 hours of prior Department accepted training may be credited.
